

Bow Tie Charity Block Directions May 2015

Each kit will make one block and contains two 5" dark squares, two 5" light squares, and a scrap of dark fabric.

First, use the stitch and flip method to sew a dark corner on each of the light squares. To do that, lay the dark scrap, right sides together, on the light square, as shown, so that after you sew the seam the dark scrap will cover the corner of the square. Then, iron and trim.

Sew the each light squares to a dark squares and then assemble the quilt square.

Thank you for participating in this charity quilt!
